

Hi Andy,

My name is Topsy, how are you guys doing and how is everyone in Buxton. How is the church? Nigel Clark forwarded your email to me, and thank you for giving me some money for my license! God bless you guys, thank you so so much.

Nigel asked me to send you the testimony about the lady who was raised from the death!!

It was on Thursday 30th of June and we were having our Silver Hope meeting. It's where we gather the elderly people in the church for sharing the Word of God with them and also to have some meal with them. So the lady who was preaching said to all of us, before she starts with her preaching that she was listen to the cd in her car on her way to the church, and the song that was sang on that cd was saying "Today is the day the Lord has made and i will rejoice and be glad". And she said to all of us that today God is going to save many around the world, He is going to heal many and God is going to raise the dead!! We were sitting outside the church on the veranda, so there was these old lady sitting next to me as I was translating for Hanneka. Annie asked her to come and sit facing us as we share the word of God with them and she refused to sit where others were sitting. She sat right in front of the old people facing them. Hanneka was talking about the sacrifice that God asked Abraham to do for Him. Where He asked him to sacrifice Isaac. And the faithfulness of God and His mercy towards them. The she said God send \His only son to die for our sins. She asked the which side of the cross they are standing. Whether where the sinner who was mocking Jesus was or where the other one who said to Jesus remember me when you come in your kingdom.

And while we were saying all this things, I realise that this people are not listen and they even talk to one another. I said to them shhh... you are making noise. They said to me look near you what is happening. And I turn to this lady [Francina] who was sitting next to me, I shook her on the shoulder thinking that she is fast asleep. After few minutes they make another noise and they all looked at this lady. I looked at her again then I realised that something is wrong. I tried to feel he pulse, it was not beating I put my head on her forehead she was cold!! then I asked the ladies to

come and pray. Sophy went inside the church to fetch the machine we are using to check HBP and it says 70/40 and the result for the heart it says there is an error! We checked the pulse again at the time she was not breathing at all!!!!!! We all had a terrible shock> But we prayed and we rebuked the spirit of death in her after 15min she came back to life. Some old people ran away and they came back when they heard us singing and praising the Lord. Because of what happened 10 old people got saved last week on our Silver Hope meeting.

Praise God He is still saying something and performing signs and wonders around the world.

Bless you all

Topsy
